SESSION 33

CONSISTENCY STRATEGY

K.Parameswari

II B.Com (Honours)

Strategy Conditions

Strategy Element	My Planned Condition
Strategy Used	Combined Strategy
Market Condition Required	A market trend with clear price movement
Entry Condition	Enter when the price shows a good buying opportunity
Confirmation Condition	Check the price movement, whether it follows the strategy
Exit Condition	Exit when the price hit the target
Stop-Loss / Risk Condition	Set stop-loss to reduce losses
Other important Condition	Wait for confirmation and avoid holding trades for too long

Strategy Consistency Summary

Particulars	Observation
Total Trades Reviewed	5
Trades where Conditions Were Followed	3
Trades where Strategy Conditions were not fully followed	2
Trades with Clear Strategy Deviation	1

Main Type of Deviation	Entering before confirmation and holding trade for too long
Most Common Consistent Behaviour	Following the combined strategy and checking price movement
Most Common Inconsistent Behaviour	Entry timing and following the planed exit time

Strategy Consistency Analysis

Area	Consistent	Inconsistent	Evidence
Market Condition Selection	✓	×	Identified the market trend before trading
Entry Condition	×	✓	Some entries needed better timing
Confirmation	✓	×	Used price movements and indicators
Exit Approach	×	✓	Held trades for too long
Trading Plan Adherence	×	✓	Followed the plan in 3 out of 5 trades
Execution Discipline	✓	×	Followed the combined strategy in most trades
Avoiding Impulsive Decision	×	✓	Sometimes entered before clear confirmation

Identify Consistent Behaviour

Consistent Behaviour	Evidence
Following the combined strategy	Used the selected strategy in all 5 trades

Identify Inconsistent Behaviour

Inconsistent Behaviour	Evidence	Possible Reason	How Can it be Prevented?
Holding trades for too long	Some trades may be held longer than planned instead of exiting at the right time.	Waiting for more profit and not following the planned exit time.	Set a clear profit target and follow the exit plan without holding trades for too long.

Strategy Improvement Plan

Area To Improve	Current Problem	Action for Future Trades
Entry confirmation	Sometimes entered before getting clear confirmation	Check all confirmation conditions before entering
Exit Timing	Held trades for too long	Follow the planned exit target and avoid holding trades for too long
Trading Plan	The trading plan was followed in only 3 out of 5 trades	Review the trading plan before every trade and follow it consistently
